MARJORIE ARCHER

FONDANT

1/3 c. syrup (Karo)
1/3 c. water
2/3 c. sugar
1 egg white-beaten

Boil syrup, water and sugar until it forms a strong string. Pour slowly into beaten egg white. Stir constantly until starts to harden. Add whole walnuts, maraschino cherries and citron. Mold into leaf. When hard, cut in slices.
For mixture #1 - combine
3 c. granulated sugar
3/4 c. water
1 c. light brown corn syrup (Karo)

Stir together until syrup is well dissolved. Caution - do not stir. Cook until temperature 246° is reached on a candy thermometer. Wash down any sugar crystals which may form during cooking with a damp cloth.

While #1 mixture is cooking, combine sugar with 1/2 c. water. (In separate pan from #1 mixture). Stir until sugar is dissolved before putting on stove. When Mix. #1 is about half done, put #2 Mix. on stove to boil slowly. As soon as Mix. #1 has reached the 246° (firm ball in cold water) then remove from stove.

Have ready 3 egg whites which have been beaten stiff, but not too dry in a large bowl. Pour Mix. #1 in a very fine stream over the egg whites, adding very gradually and beating as you add. The first portion of the syrup you pour on the egg whites may be hard when it strikes the cold egg whites, but don't worry, it will dissolve and be O.K. Continue beating until the #2 Mix. has reached the temp. of about 255° (very firm ball in cold water. Pour this hot syrup into the first part of the candy gradually and beat well until the candy will not adhere to the fingers when the surface is gently touched. It will begin to look glossy about this time. Add rum flavoring or vanilla and any color you desire, also nuts or coconut if wanted.

If for some reason the divinity does not harden in a few hours, add some powdered sugar and drop. It should hold its shape when dropped and not sprawl out.

It will keep several weeks in an air tight can with wax paper between and in a cool place. Makes a large batch.

CAROL PETTIBONE

Turn one pound of butter into two with the magic of gelatin. Here's how: Work one pound of butter into small pieces. Let stand at room temperature until soft enough to beat. Soften one envelope of unflavored gelatin in 1/4 cup cold water or milk. Add 1-3/4 cups hot fresh or evaporated milk and stir until all gelatin is dissolved. Cool to lukewarm. Gradually whip milk into butter with beater or electric mixer. Add coloring if desired. Keep covered in refrigerator. Use within a week - as a spread - not for cooking.
