Seattle's Wallingford neighborhood developed in the early 20th century as a working- and middle-class streetcar suburb with a thriving commercial core along N. 45th Street. Today, this dynamic, evolving corridor is encircled by one of the city's best collections of Craftsman bungalows and other popularly styled early- and mid-20th century houses.

Historic Wallingford thanks these volunteers: Dennis McCarthy, Linda Sewell, Mike Ruby, and Sarah Martin.

---

This old Safeway grocery store is one of Wallingford's only Art Deco-style buildings.

**Q** What are the colors of the building today?

**A**

**2021 TREASURE HUNT**

Celebrate Wallingford with this self-guided Treasure Hunt in and around Wallingford's business district. Explore historic architecture and flourishes of art with family and friends. Solve the clues and then enter to win a prize! See details at HistoricWallingford.org.
This decorative keystone is found above the entrance to what was originally the Jack-Lan Apartments, built in 1929.  
**Q** How many brick arches are in the window directly above the entrance?  
A __________

This shingled tower rises from a building that has been adapted to serve a different use. The building still has features that reveal its original use, such as the garage doors.  
**Q** How many garage doors do you count?  
A __________

This giraffe is part of an enormous mural painted on the side of a 1920s building.  
**Q** What is the mural advertising?  
A __________

This quarter-arch window is found on a building that first functioned as a single-family home.  
**Q** What is the building’s address?  
A __________

This artistic serpent detail is at the entrance of a 3-story building just north of N 45th.  
**Q** What is the function of this building?  
A __________

This ghost sign advertises this building’s very first occupant in 1920.  
**Q** What business is now in this building on the corner?  
A __________

This fluted column with an Ionic-style capital supports the west entry porch to this Landmarked building.  
**Q** What is the building’s current name and its original name?  
A __________

This rotating sign advertises a hamburger drive-in that opened in 1954.  
**Q** What kind of service does this sign promise?  
A __________

This decorative feature is found above a storefront in a Mediterranean Revival-style building.  
**Q** How many individual storefronts do you count in this one-story block?  
A __________

This giraffe is part of an enormous mural painted on the side of a 1920s building.  
**Q** What is the mural advertising?  
A __________

This artistic feature is found above a storefront in a Mediterranean Revival-style building.  
**Q** How many garage doors do you count?  
A __________

This entryway sign in the sidewalk marks where Tweedy & Popp sold hardware for many, many years.  
**Q** What is sold there now?  
A __________

This artistic detail is at the entrance of a 3-story building just north of N 45th.  
**Q** What business is now in this building on the corner?  
A __________
